Quantity / Your price

MIX TITLES FREELY, THAT IS THE WHOLE POINT

The tier is set by the total number of books in the order, not per title. 30 books across six titles costs the same as 30 of one. You can test the entire catalogue without buying your way up a single tier.

QUANTITY	YOUR PRICE, USD	YOUR PRICE, EUR	YOUR MARGIN
1-29	\$14	€13	\$6, 30%
30-49	\$13	€12	\$7, 35%
50-99	\$12	€11	\$8, 40%
100-249	\$11	€10	\$9, 45%
250-499	\$10	€9	\$10, 50%
500+	\$9	€8	\$11, 55%

One price across the whole catalogue: every title carries a \$20 recommended retail, €19.90 in euro. The euro column is its own price list, not a live conversion. Silverheart is priced separately. Prices exclude VAT and shipping. Exports from Norway are zero rated for VAT, local import taxes may apply.

Silverheart: learn history by living it

Silverheart: The Legacy of the Deep (Sølvhjerte) is the roleplaying game from the silver mining town of Kongsberg, made for the town's 400th anniversary with financial support from the municipality and expert assistance from the Norwegian Mining Museum. The game was gifted to the town's secondary schools and is used in history teaching today.

Students play poor townspeople burdened with debt in a town of miners, traders, watchmen and executioners. More than a book: this is a method for learning history by living it.

1624

Kongsberg is founded on the silver

1770

Norway's second largest city

1805

The Silver Works shuts down, the crisis the game is set in

2024

The 400th anniversary, the game gifted to the schools

2027

Licensed school portal and English edition

BUILT ON REAL HISTORY

Landmarks, trades and events from Kongsberg's own past, verified with the Mining Museum.

REFLECTION IS BUILT IN

Structured follow-up work connects the experience to curriculum goals.

NO PRIOR KNOWLEDGE

The rules take minutes to learn. Works where neither teacher nor students have played before.

TESTED IN SCHOOLS

70 students in a single day at Skrim lower secondary, with students as game masters.

The book: RRP \$45, Norwegian text, final print run. Also sold as a PDF on DriveThruRPG. From 2027: Norwegian print on demand and an English edition in PDF and print. Institutional pricing and class sets on request.

The method: classroom use is licensed through the Silverheart Portal. Three schools hold an active license today. The waiting list at kr1publishing.com/silverheart hears first.

A GROWING CATALOGUE

Several new titles are in production for this autumn and winter, in the series you already stock and beyond. Shops on our list hear about each launch first, so a reorder can include the new book from day one.
